The seriousness of the growing nurse shortage will depend upon how fast something is done to make the profession one where a woman can perform her important duties proudly and for an adequate salary," said Miss Walsh. "Unless continue have being this

. . . . themselves when it comes to salaries.

Best figures available from state government and the Michigan State Nurses Association indicate that in out-state Michigan starting salary for nurses (and this may mean a woman up to 10 years experience) is between \$3,000 and \$3,600 per year. It is somewhat higher in metropolitan areas.

This is substantially below starting salaries for teachers. Av-Meager wages are a major fac

working hours more pleasant.

"First priofity in MSNA for 1960 is higher salaries," stated Miss Walsh. The registered nurses organization realizes their success will depend in large part upon public support they can stimulate. Members seemed a little surprised at their early experience which indicated that the public has a certain sympathy for their position but no inclination to pay higher medical bills without resistance. They found that Mr. Citizen thinks his bill for doctors, hospitals, drugs his bill for doctors, hospitals, drugs and medical insurance is increasing too rapidly as it is.

"Everyone I've talked to blasts the doctors," reported one person. Support of the M. D.s will be very important to the R.N. cause. Nearly all 20,000 registered nurses in Michigan work directly for a doctor, in a hospital controlled by doctors or indirectly under the supervision of a doctor. There are 15,000 more registered

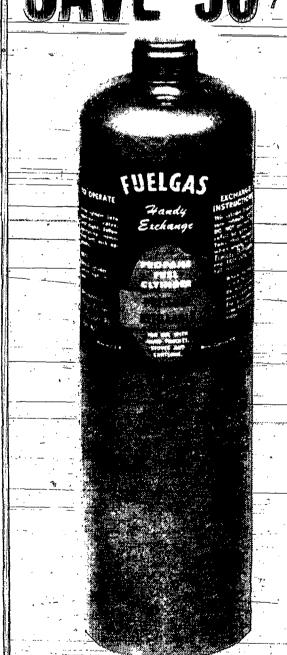

nurses who are not working in the medical profession. Some of these have married and are raising fam-ilies. Others left for higher wages The village of Elk Rapids, which obtains basic financing through one-dollar-a-week contributions from members of a development corporation, built its fourth new factory building last year. Grayling, Michigan, Thursday, March 17, 1960

### ms In The Earth

In Northern Canada, sometime during 1961, the thud of an underground nuclear explosion may be government. In essence, government is your employer only outward evidence of a tremendous convulsion during that period, and takes all of your earnings. peneath the earth. The explosion may unlock some e 275 billion barrels.

In this Athabasca deposit, each grain of sand is rate it, so that it can be pumped from the earth. think again! , an oil exploration company is drilling a 36-inch 1200 to 1400 feet, through the overburden and e 200 feet of oil sand and rock, down into the underig layer of limestone. An atomic explosion, of from 10 kilotons in size, will be set off at this point. It's ected that the surrounding mass of rock will be inntly vaporized and a hollow ball, some 250 feet in mation is expected to tumble into the cavern. It is ieved that the heat from the blood meter, will be formed. As this collapses, the oil sand ue to seep upward for months, will raise the temperre of the oil sufficiently to cause it to flow free of the

re of the oil sufficiently to cause it to flow free of the d. Then, the deposit can be drilled and the oil pump to the surface.

Now, here's the catch — no one knows whether this ll work and expert opinions on cost differ widely — raging all the way from a prohibitive \$36 per barrel with the oil exploration company's estimate of a large lattle and the wellhead. Acceptance of long odds a natural condition of the oil exploration business. It beyond that, it takes a lot of imagination to devise practical method of dropping a \$500,000 atomic bomb with a double the world's known proved oil clippert.

There was evidence, from the size of the crowd that attended "Knock Out Kollege" Friday neath that Grayling folk enjoy the children and young people who attend the demonstration of the oil exploration of a torium was filled to capacity. These from Grayling folk enjoy the children and young people who attend the demonstration of a three oil exploration business. It beyond that, it takes a lot of imagination to devise practical method of dropping a \$500,000 atomic bomb with a demonstration of the circumstance of the crowd that attended "Knock Out Kollege" Friday neath that Grayling folk enjoy that Grayling folk enjoy that drayling folk enjoy the children and young people who attend the demonstration of a three oil exploration business. It beyond that, it takes a lot of imagination to devise practical method of dropping a \$500,000 atomic bomb with a demonstration of the crowd that tatended "Knock Out Kollege" Friday neath that Grayling folk enjoy that Grayl ad that idea may double the world's known proved oil clippert. serves and prove again the power of incentive as the est guarantee of abundant future oil supplies.

### hom Do You Work For?

Whom do you work for — and why do you work? The obvious answer, of course, is that you work for ir employer or for yourself, and that the reason you ork is to provide the wherewithal of living.

However, that answer is an oversimplification However, that answer is an oversimplification with Mrs. Sidney Robarge Thursby Bunco was enjoyed and a nice lunch was served by a complete of four ladies. Miss Florence the Martin was a guest of honor. ### BITS O' TALK

I would like to express my thanks to Dr. Dosch, the Sisters, nurses and staff at Mercy Hospital for their excellent care, and to all my friends for their kind cards, visits and flowers. They are all deeply appreciated. The Arthur Wakeleys recently Charles Piper and Earl School-received a letter from the Bert field were in Detroit last Wednes-Norrises who are vacationing in florida, and thought their friends The Rev. Alvin Johnson left Sat-The Arthur Whiceleys recently received a letter from the Bert Norrises who are vacationing in Florida, and thought their friends might like to hear some of the news in it: "We are seeling quite good considering the weather has n't been too nice down here, coid and damp and rain: And when it rains here it rains. The Welshes came down last week and had a hard trip down — snow and ice through the Cumberland Mis., and then they always go to see the Childway in the Hill too fast. The car was a mess, shook them up, but best of all did not hurt them. They said Mrs. Kuhlman had been in bed 14 months now. He is 85 and has failed but had a clear mind and teaches 60 students in Sunday School besides taking care of her. They have a nice home (planned by themselves) and a nice orange grove. They sell fruit on the trees. JWe leave here Saturday and Sunday, to visit Greenfield Village and to see the Ice Review.

The Bunco Club met Thursday, March 3rd, at the home of Mrs. Eva San-Cartier, with Mrs. Walter San-Cartier, with Mrs. Walter San-Cartier. Mrs. Harwood also won the penny prize. The next meeting will be held March 24th at the home of Mrs. Harwood, second by Mrs. Eva San-Cartier. Mrs. Harwood also won the penny prize. The next meeting will be held March 24th at the home of Mrs. Harwood, second by Mrs. Eva San-Cartier. Mrs. Harwood also won the penny prize. The next meeting will be held March 24th at the home of Mrs. Harwood also won the penny prize. The next meeting will be held March 24th at the home of Mrs. Harwood also won the penny prize. Shooting the bow and arrow for recreation is rapidly increasing in popularity. This is a sport the Mrs whole family, from 6 to 60, can enjoy. Archery offers good fellowship and friendly competition, and develops physical health and mental skills. Once you try archery you will find if to be a King of Sports.

Field-archers practice on a roving range. Our local archery group, the, Grayling Bowhunters, maintain two complete 28 target field

tain two complete 28 target field tain two complete 28 target field ranges for their members. These ranges, situated 1 miles north of town in a beautiful setting of wooded hills, offer a source of fun and relaxation to the members from early Spring until late Fall.

The Grayling Bowhunters also have a fine rubbouse in form

a fine clubhouse in town, built entirely by the members, which is the focal point for winter activities. The club is active this time of year with league team shoots (run on a handicap basis similar to bowling) and with in-

structional periods for both adults and juniors. Spring is not too far off, and before long the archers will be tak-ing to the wooded trails of the field ranges. Now is the time for anyone who thinks he or she might enjoy this sport to get started. Learn the fundamentals at the Learn the fundamentals at the Grayling Bowhunters' clubhouse, and by the time the woods turn green you will be advanced far enough to venture afield with the other members for some fine times.

June 27-30 the National Field Archery Association will bold their

Archery Association will hold their-annual National Tournament at Camp Grayling. An estimated 2,000 archers from every section of the country, together with their families, will hour into Grayling. There will be 4 tremendous days of archery and many other varied activities as well. Any archer, young or old, experienced or no-wice, can participate it desired. Try the bow now, and by June Try the bow now, and by June-you'll be ready and able to meet and shoot with archers from every

State in the union.

Do you like to hunt the wary deer? Why not add another full month to your hunting pleasure next Fall by becoming a bowhunter. Practice on the field ranges under conditions and in terrain similar to those of hunting, will prepare you for a new concept of the chase come October. We bowhunters take pride in pitting our hunting skill against the wary game, depending only on our muscles and our highly developed versions of one of mankind's oldest weapons. Keep in mind-that-if unsuccessful in the archery seaosuccessful in the archery sea son you can still hunt in the rifle season. So, you lose nothing by trying the extra season, and you might just stumble on a profound secret of atavistic delight, as thou-sands of others have already done.

State in the union....

sinds of others have already done. Archery is not hard to learn. We have taught many juniors who after just a couple of lessons are able to nehieve considerable accuracy. A beginner should join the club for the advice and help he of she can get from the more experienced members. Why don't YOU look up President Stat Madsen, or one of the many other members around awin, and find out how you can arred in archery with little excess and less trouble. You don't know what you're missing until you try it. Look us up.

Waterford, and is returning this Thursday with Mrs. Malloy. Mrs. Fred Walton of Owosso ar-rived Tuesday to be the guest of Mr. and Mrs. Fred Bear for the

Mr. and Mrs. Billy Kinkerter were in Lansing, he on business at the Quartermaster's office, on Fri-day. They were weekend guests of Lt. Col. and Mrs. Versel Case over the weekend, and on Saturday the four attended a party at the Detroit Light Guard Armory given in honor of Col. Herbert F. Layle, who recently retired.

The O.E.S. Past Matrons met-at the home of Mrs. Clarence Rob-erts on February 24th, with 10 members present. Mrs. Iva Tiller. was a guest. The evening was a guest. The evening was spent in making badges for the Wolverine Association. The next meeting will be March 30th, at Mrs. J. L. Martin's home, at 7:30.

### Bigger Gar Population In Grawford Co.

(Special to the Avalanche) New York, Mar. 9 - Crawford

County ranks high in the United states in automobile population.

Latest published figures show that there are more cars per 100 families locally than there are in most counties in the country.

As of the beginning of last year, there was a total of 1,780 passenger vehicles registered in Crawford County, equivalent to 117 cars per 100 households

per 100 households. per 100 households.

It compares favorably with the figures presented for the rest of the country, an average of 109 cars per 100 households. In the East North Central States, it ran 112 per 100.

The data is contained in consumer market studies made by the

times as rapidly as the population.
Today, the trend is toward second car in the family, according to the Survey Research Center of Michigan University, two-car families now comprise 17 percent of all families. And an additional 17 percent are in the market want ing to buy second cars.

How much traveling are the second cars.

he held in the high school gym on March 22nd, from 7 to 10 p.m., with Mr. Quandt again conducting he,training. All fathers of present doy Scouts and future candidates. are urged to attend the March 22 meeting and see the splendid char-acter building program Scouting How much traveling are people doing in all those cars? More that they ever did, thanks to bigger in comes, better roads and more less ure. The average per car is about 10,000 miles a year.

Crawford County drivers, that basis, are covering some in million miles annually.

Fri., Sat., Sun. & Mon. March 18, 19, 20, 21 "Operation Petticoat"

With Cary Grant and Tony Curtis

My mission is to sorve humanity without regard to creed or position or time or place. I am the servant of the poor, the commissioner of the rich. With each sunrise and each sunset I go forth with new missions to perform. Each new day thousands rely upon me to fill their needs and satisfy their wants.

I SEARCH OUT all manner of things for all manner of persons, I find the castle for the newlyweds, a home for those grown weary and aged, I find a business for a future giant of industry and a little shop for a widow's livlihood.

I ALTER the course of millions, and many times the future of maid and man is of my determination. I recover the lost pets of weeping children and restore lost persons to anxious friends. I sing the praise of artisans, proclaim the skill of craftsmen. I find labor for the man of brawn as well as opportunity for trained and active minds.

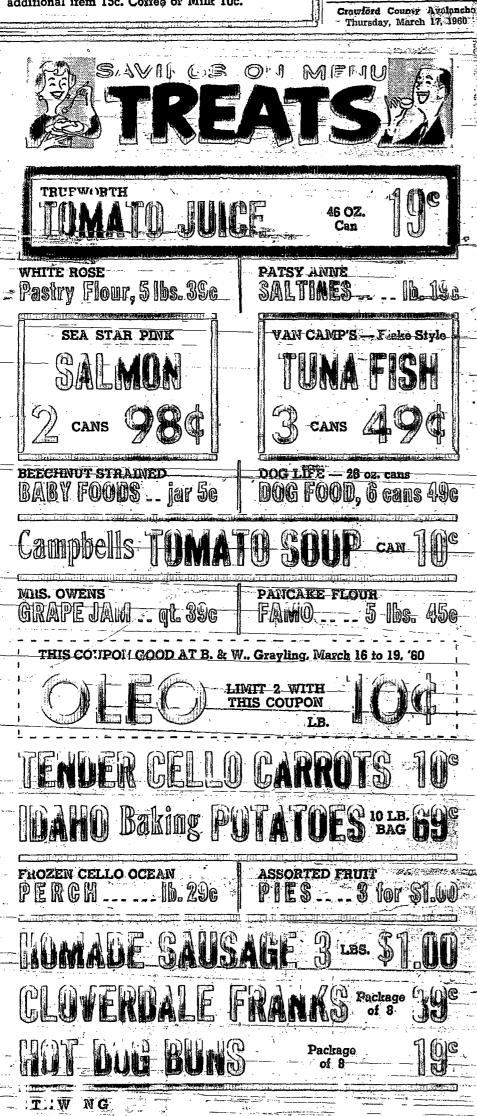

I AM THE Fabled Dwarfs, Aladdin's Lamp and the Magic Wand of modern times. Millions in trade are consummated through me, yet the value of my service is not to be measured in sliver or gold. I am an indox-of trends, a barometer of commerce, a harbinger of coming events. I am a by-word in countless thousands of homes the first thought in many times of need. My speed of action, the sureness of my suc-

WITHIN my lines are the sad stories and the glad stories of everyday living that goes to make up life. I perform in my own individual way and for me there is no substitute. No other medium, no other method, plan, or scheme can duplicate my

IN MULTIPLE, I pacome the world's greatest market of services and things. I. am born of the people and have lived and grown by their insistence and over the protests of those who hold by destiny. I have become an institution of service big enough nd broad enough to do anything for anybody at any time - I AM THE WANT ADI
